# *The Process*

## Inquiry & Connection

Once you submit an inquiry, I'll be in touch as soon as possible. From there, you'll receive an email with the option to schedule a quick call, or if that isn't your cup of tea, I'll send you all the info and answer any questions you may have. Think of this as a relaxed, no-pressure conversation where we can chat through your vision, walk through package options, and make sure we're the perfect fit. Your experience matters just as much as your photos, so this is where it all begins.

## Booking Your Date

When you're ready to move forward, I'll send over your contract and invoice. A 20% non-refundable retainer officially secures your date and ensures my full focus is reserved just for you. From this point on, you're on my calendar and I'm all in on bringing your vision to life.

## Questionnaire

Before we dive into planning, you'll receive a thoughtfully designed questionnaire. This gives me insight into your style, preferences, priorities, and all the meaningful details that make your story uniquely yours. For weddings, this is especially helpful in understanding your must-have moments and key people, so nothing is missed.

## Planning & Preparation

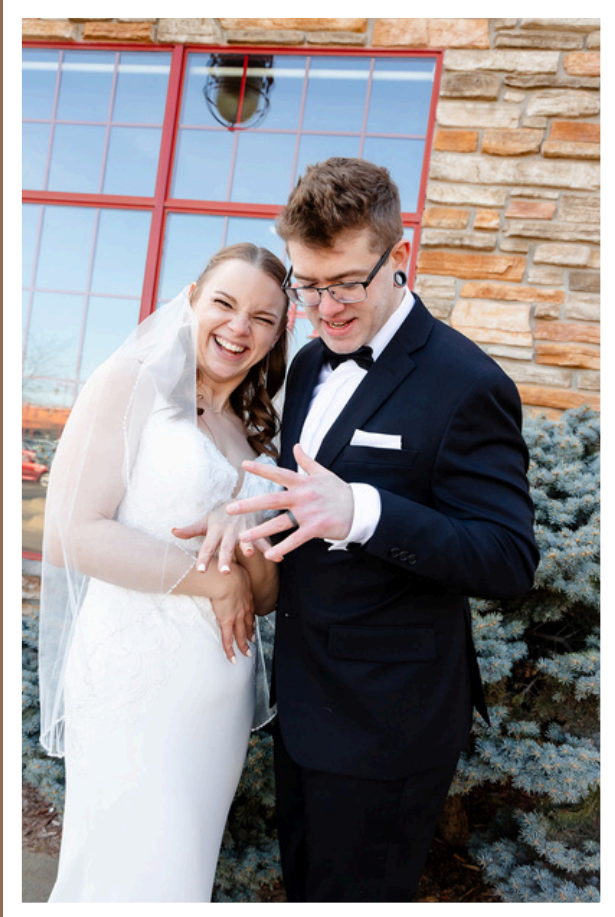

With your questionnaire in hand, we'll connect to refine the details. For weddings, I recommend at least one virtual or in-person meeting to walk through your timeline, answer questions, and ensure everything flows seamlessly. This is where we fine-tune your vision and make sure you feel completely confident and taken care of leading up to your day.

## Your Session / Wedding Day

When your day arrives, I'll be there early, prepared, and ready to capture it all with intention. My goal is to create a calm, enjoyable experience while documenting both the big moments and the in-between ones you didn't even realize were happening. You get to be fully present—I'll take care of the rest.

## Editing & Delivery

After your session, I carefully curate and edit your videos to reflect the true feel of your day. Once complete, your final videos will be delivered in a beautiful, easy-to-use online format—ready for you to download, share, and relive every moment for years to come.
